## Policy and Procedure Guidance

- As a reminder, a complete set of our policies is available at [envolvevision.com/policies](https://envolvevision.com/policies).
- Diagnosis codes must be reported at their highest level of specificity. Diagnosis codes labeled "other specified" (e.g., other specified visual disturbances) or "unspecified" (e.g., subjective visual disturbance, unspecified) do not meet the requirements of a valid co-morbidity or medical reimbursement.
- Diagnosis codes that describe signs and symptoms (e.g., headache, pain in or around the eye, visual discomfort), as opposed to diagnoses, are suitable only when a diagnosis has not been established and do not meet the requirements of a valid co-morbidity or medical reimbursement.
- \*ICD Codes for Texas health plans are available in Eye Health Manager at [envolvevision.com/logon](https://envolvevision.com/logon)
